October 2007 – For immediate release

**ANALOGUE CFO100 AND CFO200 SERIES – EOL AND REPLACEMENT ANNOUNCEMENT**

Teleste announces the end of life for the last analogue based CFO video modem line. CFO100 and CFO200 series for multimode fibre have been in the marketplace since 1994 with an outstanding record of delivered units. Despite this fact these series are now entering their final phase of lifecycle and shall be replaced with new digital designs. The End of Life date for above mentioned series is set to the end of February 2008.

**Items affected**

- CPT111, 1-ch video transmitter, mini-module "Pixi"
- CRT113, 3-ch video transmitter, 5HP card
- CRR111, 1-ch video receiver, 5HP card
- CRR113, 3-ch video receiver, 5HP card
- CRT212, 1-ch video transmitter with data receiver, 5HP card
- CDT211, simplex data transmitter, 5HP card

**Closing period and final orders**

End of Sales date will be February 1st, 2008. After this date the above listed products are no longer available from Teleste sales. Spare part support and maintenance service are continued by Teleste after sales department according to their valid conditions to the date.

**Replacement**

The new models are available in similar product format and are compatible with existing CFO installation mechanics. For more product details and enhanced features, please, refer to the latest Technical Specification sheets available at Teleste web site. Sales activities with latest availability information shall be initiated in November 2007.

- CPT101, 1-ch video transmitter, mini-module "Digi-Pixi"
- CRT103, 3-ch video transmitter, 5HP card
- CRR101, 1-ch video receiver, 5HP card
- CRR103, 3-ch video receiver, 5HP card

There shall be no direct replacement for the CFO200 with simplex return data. For this type of applications the recommendation is to use CFO321 series video link with 2-way data.
