

# CFO321: EOL Announcement

December 2010 – For immediate release.

Teleste announces the End of Life of the CFO321 Series, effective on 27th of May 2011. Discontinuation is due to changes in the material supply chain. The CFO321 series has been on the market place since April 2006.

## Items affected

CFO321 series 1-channel video and data link (multimode)	
<b>CPT321</b>	1-channel Video Transmitter, compact stand-alone unit
<b>CRR321</b>	1-channel Video Receiver, 5HP wide rack mount card

## Closing period and later support

The last order date will be 29th of April, 2011. After this date no order confirmations are made for the above mentioned products. Production of this series will be stopped during May 2011. Spare part support and maintenance service are continued by Teleste after sales department according to their valid conditions to the date (availability and pricing).

## Replacement

New CFO331 items (current estimated availability in February 2011):

CFO331 series 1-channel video and data link (multimode)	
<b>CPT331</b>	1-channel Video Transmitter, compact stand-alone unit
<b>CRR331</b>	1-channel Video Receiver, 5HP wide rack mount card

The continuation of the CFO321 functionality is covered by new CFO331 series. Based on the same form factor as it's predecessors the new series provides 10-bit video transmission together with bi-directional PTZ-data and contact closure I/O channels. All previous mechanical CFO installation schemes are applicable.

Fibre operation is based on 1310/1550 nm receptable optics with SC/PC connectors (ref. CFO321 was 1310/850nm, ST). Due to change of optics, the CFO331 is not optically backward compatible with CFO321. Maximum transmission distance is 5 km over straight OM1 type multimode fibre. The true realized distance is subject to the fibre type, condition and cabling arrangements on sites.

## Support

Please contact your nearest Teleste office for more information on product details, availability and pricing.

For comments and questions around the issue, please, send your messages by email to [info.vn@teleste.com](mailto:info.vn@teleste.com), thank you.
