

SALES NOTIFICATION

Teleste reserves the right to alter specifications, materials and features at any time.

March 2006 – For immediate release

CSR014 & 114 including CPS372 to become obsolete

Teleste announces the End of Life (EOL) of the CSR014 & 114 installation racks including the rack power supply CPS372, effective on **30th of June 2006**. This selection of installation components have been on the market place since 1993-95.

Items affected

CSR014, Installation rack, 19" 3U, 14 x 5HP slots, front loading

CSR114, Installation rack, 19" 3U, 14 x 5HP slots, rear loading

CPS372, Power Supply, 90...264 VAC, 70 W, for CSRx14 use

CPC121, power cord EU for CPS372

CPC122, power cord UK for CPS372

CPC123, power cord USA for CPS372

Closing period and later support

The End of Sales (EOS) will be effective on **1st of June, 2006**, after which the products are no longer for sale. After the EOS/EOL dates, all further material inquiries as well as maintenance issues shall be processed by Teleste Professional Services (After Sales) department. For any required repair service the standard 7 year support after product termination is provided.

Replacement

The availability of current CSR216 & 316 rack models (16 x 5HP slot capacity) as well as rack power supply model CPS384 (115/230 VAC, 102 W) with related accessories shall continue normally. Please check the latest price list for ordering codes for individual units or installation packages.

Please contact your nearest Teleste office for more information.
