

XSS-16 – 16 bay storage matrix Replacement Announcement

September 2011 – For immediate release.

Teleste announces the replacement of model for 16 bay matrix VMX product, effective on 29th of September 2011.

The product was originally based on Infortrend model A16U-G2430-M5 which is no longer available from our sourcing. The model is replaced by ESS16UG1440MB which now will be used also as a build for our XSS-16.

Items affected

16 bay storage matrix	
XSS-16	16-bay HDD array (3U)

Closing period and later support

The last order date will be 29th of September 2011. After this date we cannot guarantee any confirmation for new orders. After closing period the spare part support and maintenance service for the goods in question will be handled by Teleste Repair Service according to their valid conditions.

Replacement

The product code and functionality remain unchanged.

Physical build is almost identical – dimensions of chassis without handles:

Old model (XSS-16)	
Dimensions (H x W x D)	130 x 445 x 487 mm (5.1 x 17.5 x 19.17 inches)

New model (XSS-16)	
Dimensions (H x W x D)	130 x 445 x 488.2 mm (5.1 x 17.5 x 19.22 inches)

Remaining hardware characteristics and XSS-16 product build capabilities are the same (battery backup units, accessories, etc).

Please contact your nearest Teleste office for more information.
