

XSS SCSI storage array EOL Announcement

January 2012 – For immediate release.

Teleste announces the End of Life of the SCSI builds and components for XSS, effective on 29th of February 2012. Discontinuation is due to technology change observed on the market of HW storage providers. SCSI technology is being replaced by SAS and in the result SCSI components and arrays are becoming obsolete.

SAS replacements of SCSI components and builds will be introduced. New SAS storage arrays will be able to accommodate both SAS and SATA HDD.

Items affected

XSS product	
XSS-04	4-bay HDD array (1U)
XSS-08	8-bay HDD array (2U)
XSS-12	12-bay HDD array (2U)
XSS-16	16-bay HDD array (3U)
XSS-24	14-bay HDD array (4U)

SCSI interface cards	
XSC 406	external storage interface for XSC products
XBX 205	external storage interface for XBX products

Accessories	
-------------	--

Closing period and later support

The last order date for SCSI arrays and related cards and accessories will be 20th of February 2012. After this date we cannot guarantee any confirmation for new orders. After closing period the spare part support and maintenance service for the goods in question will be handled by Teleste Repair Service according to their valid conditions.

Replacement

SCSI components will be replaced by corresponding SAS components. First day of orders for new SAS arrays and accessories is 12th of February 2012. All dates announced may be subject to change.
