# Panel and Cable Assemblies

## 60 YEARS OF CUSTOMIZATION HISTORY

Teleste customization solutions have over the years proven to provide increasing efficiency, reducing complexity and ensuring maximum optimization - we develop high quality products with care and detail in design, build, QA and shipping processes.

### Cable Assemblies

Design and manufacture of custom cable assemblies.

- 5 & 10 core cable and other variants
- RG6
- RG59
- Mini RG59
- High quality connectors
- Custom labelling and shrink capabilities

### Patch Panel Assemblies

Custom panel layouts and designs for specific needs and solutions. We can offer a wide selection of colours and incorporate logos to keep with existing product design schemes.

- Varying sizes from 1U - 8U
- All metal work is laser cut with professional finishes

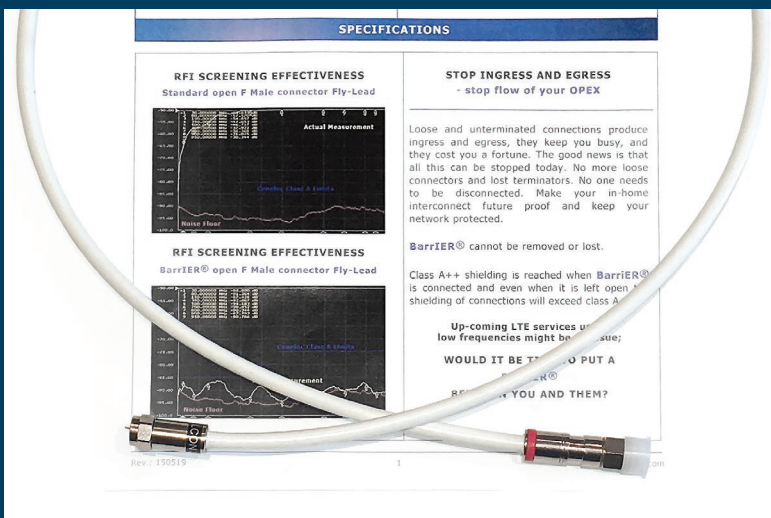

Teleste is committed to provide our customers world class products and services.

With the best people and processes in the industry, we are continuously improving our processes and the level of customer satisfaction. Aspiration to the best possible performance is an integral part of 'Telestian' mind-setting.

## Custom Solutions

We specialise in bespoke customer design solutions. E.g. a unique galvanic isolated flylead solution incorporating custom shrink capabilities to protect the connectors.

## Fly-leads

Our individual cables for interfacing equipment and components. A bespoke service to design and build customer products with a selection of length, cable, connector, colour choices and labelling solutions.

## CUSTOM SOLUTION ASSEMBLIES

### Way of working

Teleste product quality and quality know-how are widely appreciated by our customers. We have always focused on providing smarter network solutions and fast, efficient and safe installation practices. We offer comprehensive solutions optimized for their respective business environment and the existing standards applied in the given market.

### Customization
