

Patchcords and Pigtails - Simplex/Duplex

# enlighten PATCHCORDS and PIGTAILS

Teleste supplies various kinds of fibre optic patchcords in simplex and duplex structures. We have available standard and premium performance models typically G652A1/A2 fibre with cable diameter of 2 mm, in LSZH yellow jackets. We can also support your needs for other custom assemblies.

## Features

- Available in Grades Premium, Standard and Custom
- Low insertion and return loss
- The series includes highly reliable products that are temperature stabilised and having excellent precision alignment
- Wide range of connector and optical fibre combinations available
- Aramid yarn strength member
- RoHS compliant
