SMART, SAFE AND SMOOTH FUTURE

## ON-BOARD TFT LCD DISPLAYS

## ON-BOARD TFT LCD DISPLAYS

A variety of display solutions based on TFT LCD technology to share your information with superior readability and railway-proof design that fulfils EN 50155 and fire and smoke standards. Passengers can enjoy clear and rich content during their journey!

## Versatile display options for various customer needs

The on-board TFT LCD display series includes different display types in several different sizes, including monitors, open-cell displays and flush-mounted displays. Stretched display types with wide display format 32:9 are available for installations where space is limited. There are both single- and double-sided options available with several different mechanical integration options. Our on-board TFT LCD display series includes a Human Machine Interface (HMI) interactive display with touch screen in various sizes.

Passenger Information \& infotainment displays
Our integrated PIS and infotainment subsystems provide versatile integration of passenger information, news, advertising, entertainment and other information for our on-board TFT LCD displays. The information can be streamed from external sources or triggered from a local media database. The solution supports a wide range of video and audio formats.

## Railway-proof design

Our IP54-protected on-board TFT LCD displays are designed and tested for railway environments, and they fulfil even the strictest quality requirements standards such as EN 50155 and fire and smoke standards. Our advanced thermal management solutions ensure device operation even in extreme temperatures in the range of $-25^{\circ} \mathrm{C}$ up to $+70^{\circ} \mathrm{C}$.

## Low cost of ownership

Teleste's on-board TFT LCD displays are designed for a long lifetime of over 10 years. Only industrial high quality components are used to ensure long-lasting service-free operation of device. The energy-efficient and service-free backlight system is based on ELED technology. Intelligent diagnostics monitors display operations in real time, and the information can be used for preventive maintenance to ensure constant operation of the device.

ON-BOARD TFT LCD DISPLAYS TECHNICAL SPECIFICATIONS (typical values unless otherwise stated)

| PRODUCT CODE | TFT LCD format | Resolution | Active display area (mm) | $\begin{aligned} & \text { Brightness } \\ & \left(\mathrm{cd} / \mathrm{m}^{2}\right) \end{aligned}$ | Dimensions, weight |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 17.3" TFT LCD indoor monitor | 16:9 | $1920 \times 1080$ | $382 \times 215$ | 300 | $440 \times 277 \times 67 \mathrm{~mm}, \sim 9 \mathrm{~kg}$ |
| 18.5" TFT LCD indoor monitor* | 16:9 | $1366 \times 768$ | $410 \times 230$ | 300 | $476 \times 297 \times 70 \mathrm{~mm}, ~ \sim 10 \mathrm{~kg}$ |
| 18.5" TFT LCD indoor monitor | 16:9 | $1920 \times 1080$ | $409 \times 230$ | 350 | $469 \times 290 \times 67 \mathrm{~mm}, \sim 7 \mathrm{~kg}$ |
| 21.5" TFT LCD indoor monitor | 16:9 | $1920 \times 1080$ | $476 \times 268$ | 250 | $535 \times 326 \times 67 \mathrm{~mm}, \sim 9.5 \mathrm{~kg}$ |
| 23.8" TFT LCD indoor monitor | 16:9 | $1920 \times 1080$ | $527 \times 296$ | 250 | $588 \times 358 \times 70 \mathrm{~mm}, \sim 11 \mathrm{~kg}$ |
| 29" TFT LCD indoor monitor | 32:9 | $1920 \times 540$ | $706 \times 199$ | 500 | $763 \times 262 \times 69 \mathrm{~mm}, \sim 11.5 \mathrm{~kg}$ |
| 37" TFT LCD indoor monitor | 32:9 | $1920 \times 540$ | $899 \times 253$ | 700 | $960 \times 313 \times 69 \mathrm{~mm}, \sim 14 \mathrm{~kg}$ |
| 42" TFT LCD indoor monitor | 36:9 | $1920 \times 480$ | $1040 \times 260$ | 700 | $1100 \times 322 \times 77 \mathrm{~mm}, \sim 17 \mathrm{~kg}$ |

general characteristics

| Controller | Industrial PC |
| :---: | :---: |
| Interfaces | Ethernet 10/100BASE-TX, M12 |
| Viewing angle | $178{ }^{\circ}\left({ }^{*} 160{ }^{\circ}\right.$ ) |
| Housing, color | Aluminum case, RAL color |
| Front glass | Hardened, double side antireflective coated 4mm glass |
| Protection class | IP54 |
| Backlight lifetime | 50000 hours (50\%) |
| Temperature range | Full operation $-25^{\circ} \mathrm{C}$ to $+55^{\circ} \mathrm{C}$ <br> Limited operation $-40^{\circ} \mathrm{C} \ldots-25^{\circ} \mathrm{C}$ and $+55^{\circ} \mathrm{C} \ldots+70^{\circ} \mathrm{C}$ <br> Storage $-40^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |
| Operating voltage | $24 \mathrm{VDC}, 72 \mathrm{VDC}$ or 110VDC |
| Standards | EN50155, EN50121-3-2 |
